TECHNICAL DATA SHEET

Morvel Premium Wax Polish for FRP

Product Description
Morvel Premium Wax Polish for FRP is a premium quality Carnauba-based mould release and surface finishing wax specially designed for FRP, PU Foam, and composite mould applications. The product provides smooth mould release, glossy surface finish, and enhanced mould protection while reducing sticking and mould damage.

Parameter	Specification
Product Name	Wax Polish for FRP
Grade	Premium
Color	White
Appearance	Creamy Paste
Texture	Paste
Wax Type	Carnauba Wax
Odor	Aromatic
Density	0.8 g/cm³
pH	8.5
Drying / Buffing Time	Approx. 10 Minutes
Coverage Area	400 – 450 sq.ft/kg
Flammability	Non-Flammable
Shelf Life	18 Months
Packaging Sizes	1 kg, 3 kg, 25 kg

Key Features & Benefits
- Smooth and easy release from FRP / PU moulds
- Reduces sticking and minimizes mould damage
- Enhances surface finish with clean glossy results
- Improves productivity with faster demoulding
- Easy application and buffing process
- Suitable for repeated mould release cycles
- Helps maintain mould surface life

Applications
• FRP Industry
• PU Foam Industry
• Composite Mould Manufacturing
• Automotive Components
• Boat Manufacturing
• Industrial Composite Moulds

Application Instructions
1. Ensure that the mould surface is clean, dry, and free from dust or grease.
2. Shake or stir the product properly before use for uniform consistency.
3. Apply a thin and even layer using a soft cloth, sponge, or applicator pad.
4. Spread the wax uniformly across the mould surface.
5. Allow the coating to dry for approximately 5–10 minutes.
6. Buff the surface gently using a clean lint-free cloth or polishing machine.
7. For new or porous moulds, multiple coats may be applied.
8. Begin the FRP/PU moulding process after final buffing.

Safety & Storage
• Keep away from children
• Industrial use only
• Store in a cool and dry place
• Keep container tightly closed when not in use
• Protect from direct sunlight and excessive heat
